

# Precisely Application Services Subscription for Connect CDC

Your organization depends on your IT team's ability to optimize its business efficiency. However, in today's ever-changing and demanding business environment, IT initiatives require an evolving set of skills, making it difficult for your team to keep pace with business needs. An Application Services Subscription for Connect CDC provides a combination of education and professional services to give your IT team a cost-effective way to update and evolve your data replication implementation. You receive eLearning training seats, to ensure that your team is on top of the latest Connect CDC advancements, along with 40 hours per year of professional services to use for data replication health checkups, monitoring, and more.

There are many benefits to be gained with the Application Services Subscription for Connect CDC, including:

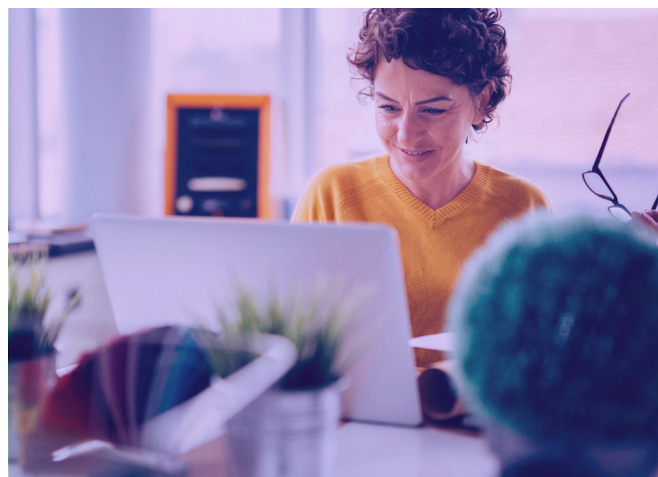

- Ongoing performance optimization
- Upgrades with low risk and downtime
- Consultations with experts in change data capture on all platforms, including IBM i and z/OS
- eLearning to help your team improve its understanding of big data, cloud technologies, and DBMS transactions and operations

## eLearning with Precisely

Your services subscription comes with two eLearning seats for Precisely's education and training programs on Connect CDC. With eLearning seats, you can train new team members or upgrade skills for existing staff so your team has the knowledge they need.

### Benefits:

- Access to quality training to onboard new resources
- Maintain your team's change data capture skills at the required level
- Ensures your team understands the latest capabilities of Connect CDC to deliver peak data replication performance

## Get time with our experts

Your services subscription comes with up to 40 hours per year of assistance and ongoing product education. Our goal is to ensure you are getting the most out of your Connect CDC investment and ensuring that you are championing innovation in your organization.

### Benefits:

- Ensure your change data replication is running smoothly with our Health Assessment
- Leverage our experts to upgrade solutions
- Have a roadmap for your next innovation by engaging with our experts on future planning
